## FEATURES & ACTIVITIES OF OUR CLUB

- Our club was formed in 1993 by a group of people keen to promote safe four wheel driving.
- Whilst we abide strictly by the 'Code of Ethics', at the same time we enjoy recreational four wheel touring and the challenge of four wheel driving.
- We enjoy being part of and learning from the natural environment in friendly and relaxed company.

- We have a strong family orientation. Partners and children attend monthly meetings and participate in driver training and other club activities.
- We believe that children especially should be given the opportunity to experience Australia's natural environment and we have strong commitment to the preservation of the natural environment.

- We believe that trip planning must include self-sufficiency for travel in remote areas that necessitates carrying spares, first aid kit, fuel, water and effective communication.
- We encourage participation by all members in the wide variety of events held throughout the year, including day trips and longer breaks to all parts of Australia.
